## MEDICATION NOTICE TO ALL PATIENTS

In compliance with Tennessee State law, our physicians do not routinely prescribe narcotic pain medications in their practice. Narcotics are only used rarely, such as post-operative pain or acute fracture/injury. Our physicians do not prescribe long term pain medications. If you are on chronic pain medication or feel you need these types of medications we recommend that the topic be discussed and reviewed with your primary care physician. Nonnarcotic medications are only called in during office hours from 8:00am – 4:30pm, Monday through Friday. For any after hours medication please call your primary care physician or pain management specialist, or go to your local Emergency Room.
