Helpful things to know about TOA Work Comp Referral Coordination

- Work Comp Specialists direct phone or email as listed below are the best options for prompt service.
- TOA.com offers physician information searchable by location and specialty.
- Medical record review is required for new referrals with an injury history that includes medical treatment by an orthopedic or neurosurgical specialist. Record review fees apply for physician time spent in accordance with TN WC medical fee schedule. Other physician specific record review protocols may apply to referrals as directed by TOA physician specialists.
